

# TITANTRAX® PK

## TECHNICAL DATA SHEET

### X-Section

- ① Repaired Asphalt/Concrete
- ② TitanTrax Shield
- ③ TitanTrax Grid with Cement Mix
- ④ Color Finish
- ⑤ Game Lines

The TitanTrax PK® is a patent pending pickle ball surface. It is the only surfaces system designed specifically for the sport of pickle ball to ensure tournament ball bounce and response.

### TITANTrax PK®

CONSTRUCTION	Structural Membrane & Integrated Grid
SURFACE REINFORCEMENT	3 FT Wide Fiberglass Raised Grid
TOTAL THICKNESS	8 MM
INFILL	Polyresin Cement Mixture
TOTAL WEIGHT	2 LBS / FT <sup>2</sup>
BASE SHEET	Dimensionally Stable Membrane
ROLL LENGTH	Custom
ROLL WIDTH	12 FT
COLOR FINISH	Acrylic Color System

#### Standard Use:

- Overlay system for pickle ball court surface.
- Installed over new or deteriorated asphalt and concrete surfaces.
- Protects pavement from further damage from the elements.

#### More Details:

- All materials specifications subject to manufacturing tolerances of +/- 5%.
